APPENDIX J'S MOVE A'HEAD WITH ARAI

ARAI APPENDIX J TRI STATE SERIES - 1993

Appendix J Association - Classic Touring cars, is delighted to announce that a sponsorship package has been agreed with leading helmet manufacturer, Arai for the Appendix J 1993 Tri State Series.

The 1992 Hessone Tri State series, with rounds at the Lakeside, Phillip Island and Eastern Creek Historic meetings, was popular with both entrants and spectators. Near capacity grids and close racing ensured exciting and quality events, with the class based points score resulting in Victorian Eddie Dobbs (Holden FB), being the leading pointscorer, closely followed by fellow Victorian Lindsay Cripps (Holden EH) and New South Welshman, Peter Heriot (Alfa Romeo).

This year's Series follows the same succesful formula, with Arai picking up the tab for all trophies as well as the major prizes for series winners, which will again be air fare and accomodation packages to various Australian resorts.

Arai have a range of helmets to suit just about every need and budget and are recognised as a leading manufacturer and supplier of top quality head gear.

Arai's involvement is most welcome by the Appendix J movement. The many sparsely covered heads in Appendix J couldn't be better protected and the younger heads will stand a much better chance of becoming older heads.
