## EDITORIAL

As you may read from the front leader there is a new committee for 1994 headed by new President Chris Dubois.

I would like to thank the outgoing committee for all their effort and works over the last year and I hope that all the work has been in the interest of a stronger Group N throughout Australia.

There has been much racing over the last month and the HSRCA meeting at Eastern Creek was an excellent meeting for those who wanted a touch of endurance racing with a 12 lap (25 minute) race. It was great racing and I would hope that this type of event becomes again popular with the promoters. Similarly the Wedel Transport races at Bathurst were well attended with the Group N races being very popular. Bathurst is a very special place and for those who have not been I can well recommend it.

Two social events that would be well worthwhile attending are the Driver day at Oran Park North in mid to late November and the Kids Christmas Party at the end of November. The Driver day will be run under strict guidelines and if you want to go please call Chris Dubois or Syd Grevett. It should be a super day along with BBQ etc at day end.

The minutes of the meeting are worth reading if you have not been attending and intend to run. I have been questioned by a number of drivers regarding tyres for 1994 and it is clear that the new tyres will be in force from January 1, 1994. A tyre list has been published of eligible tyres both in the CAMS report and this magazine and if you are unsure you can get an official copy of the list from either Chris or Lloyd at the meetings. The Mexican amendment for the extra 12 months to wear out your old R tyres will end in January.

As a final note much is happening on the group Nc class and this Association is forming a committee to assist in formulating the new rules. If you have view then let it be known.

Roll on 1994.

Regards,  
Tom Amos
