Mobile phone	

Please state your mechanical experience in carrying out the engine sealing process.

--

Terms and Conditions

A recognised engine sealer shall be familiar with the official Motorsport Australia engine sealing procedure, associated forms that need to be completed and forwarded to the HTCA NSW for records and filing.

The inspector must also reference the Motorsport Australia 5th Category Historic Racing Group Approved Vehicle Specification Sheets for the vehicle that is being inspected. The sealer must use the official HTCA NSW seal and apply the seal in the nominated location for the particular vehicle being inspected. Sealers must have computer access to the Motorsport Australia website.

I have read and understand the requirements and responsibilities involved in the vehicle eligibility process and wish to be considered for inclusion on the recognised list of sealers of race vehicle engines.
